

The 3rd Annual

Advanced Fetal Imaging and Ultrasound and MRI Conference

Thursday, December 8, 2022

Advanced Fetal Imaging - Ultrasound and MRI will be offered for the third time as a Pre-Conference Course to the Phoenix Children's 13th Annual Fetal Cardiology Symposium. The course will consist of 13 lectures emphasizing a multidisciplinary approach to challenging prenatal diagnoses. This year, the symposium will focus on the prenatal imaging, counseling, fetal therapy, and postnatal management of spinal anomalies, congenital diaphragmatic hernia, congenital infections and placenta accreta spectrum.
