

PHOENIX CHILDREN'S
Center for Pediatric Orthopedics

Research Volunteers Needed

The Bubba Watson and PING Golf Motion Analysis Laboratory needs to measure walking of **normally developing children**. This data will be used in comparisons with patient data and to support on-going Quality Improvement projects. The children that may participate must be able to:

- Walk independently
- Climb and descend a flight of five stairs
- Follow verbal instructions

The study will be conducted between 8 a.m. and 5 p.m., Monday through Friday, on the 2nd floor of the Main Building, Phoenix Children's Hospital.

The testing sessions may last up to two hours. There will be no painful procedures or shots. A parent must sign a consent form for each child participating.
