COVID-19 COMMAND CENTER

Everyone 5 years or older is eligible to receive the COVID-19 vaccine. Each of the three vaccines currently available — either with full approval or under emergency use authorization from the U.S. Food & Drug Administration (FDA) — is proven safe and effective and offers protection from serious illness and death due to COVID-19. Eligibility for each vaccine currently available dependson your age:

> **Pfizer** – 5 years and older

> **Moderna** – 18 years and older

> **Johnson & Johnson** – 18 years and older

HOW TO GET YOUR CHILD A VACCINATION APPOINTMENT

Phoenix Children's is working urgently to distribute the vaccine as quickly as possible to eligible children. Please visit www.phoenixchildrens.org/COVID-19-Resource-Center for up to date information on where the vaccine is available at Phoenix Children's locations and how to make an appointment.

Additionally, appointments may be scheduled through the state vaccine scheduling website: https://podvaccine.azdhs.gov/. Maricopa County also offers a list of COVID-19 vaccine locations: Maricopa.gov/5659/COVID-19-Vaccine-Locations. Many pharmacies also offer the vaccine as well.

WHICH VACCINE WILL YOUR CHILD RECEIVE?

The Pfizer COVID-19 vaccine is currently authorized for use in those 5 years and older. The Moderna and Johnson & Johnson COVID-19 vaccines are authorized for individuals 18 years and older. Each COVID-19 vaccine has demonstrated it provides significant protection against COVID-19.
