

Car Seat Safety

Learn how to keep your child safe in a car and how to install your car seat the right way. Classes are for expectant parents and parents with children infant to 8 years of age.

Did you know...

- Car seats expire 6 years from the date of manufacture
- Your car seat should be replaced after a moderate to severe crash
- 80% of car seats are not installed properly
- Correct use of car seats reduce the risk of death by as much as 71%

**Call 602-933-3350
to register for a
car seat class today!**

*Classes are held at
Phoenix Children's Hospital*

Reminder: Children may not attend classes and childcare is not available.
