

The 27th Annual

Children's Neuroscience Symposium

April 11 – 12, 2025

Phoenix Children's Conference Center
2632 N. 20th Street, Phoenix, Arizona 85006

Phoenix
Children's

Barrow
Neurological Institute

This symposium presents state-of-the-art, evidence-driven information on recent advancements essential for medical professionals engaged in evaluating and managing complex neurological conditions. Lectures will provide crucial updates utilizing the most recent research combined with proven care management strategies for better clinical decision-making and best practices in patient care. The symposium emphasizes the importance of the collaborative partnership between primary care providers and specialists, to ensure a comprehensive continuum of care for patients facing neurological challenges.

Headache/ Migraine Best Practices in Treatment, Latest in Procedures and When to Refer

Ahmar Husain, MD

3:40 - 4:00 PM

Pediatric Pain Management at Phoenix Children's

Dannah Raz, MD, MPH

4:00 - 4:40 PM

Autism and Alternative Therapies

Todd Levine, MD

4:40 - 5:20 PM

Primary Care Office Treatment of Behavior Problems in Patients with Autism

Saturday, April 12, 2025

Harlori Bains, MD

8:00 - 8:40 AM

Neuroimmunology – What the PCP Needs to Know

Patricia Cornejo, MD

8:40 - 9:20 AM

Neuroradiology for the PCP

Brian Appavu, MD

9:20 - 10:00 AM

Neurocritical Care – Updates for the PCP including Post TBI Care

Rebecca Silverstein, DO

10:20 - 11:00 AM

Newest Updates on Epilepsy and the Implication on Patient Care

Jason Hauptman, MD, PhD

11:00 - 11:40 AM

Multi-disciplinary Surgical Management of Epilepsy for the PCP

Christi Sports, MS, RDN, CSP

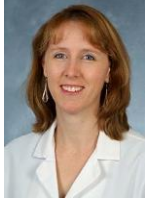

11:40 - 11:55 AM

Common Ketosis Queries: Answers to Burning Questions About this Fat-Fueled State

Lunch-N-Learn

12:15 - 1:15 PM

A Family Centered Approach: How Providers Can Best Support Patients and Their Families

Kara S. Lewis, MD

*Barrow at Phoenix
Children's*

Nannette Salasek

Raising Special Kids

Michele Thorne

*Care 4 The
Caregivers*

Course Objectives

Our goal is to improve the knowledge of primary care clinicians, so they are better equipped to provide accurate assessments and management of care, facilitate their interactions with the specialist and improve overall care to this group of patients.

Upon conclusion of this program, participants will be able to:

- Gain new abilities and strategies to diagnose, manage and treat the complex neurological patient using the most relevant, up-to-date information.
- Modify their practice through this evidence-based education in a way that will allow them to immediately translate the new information into clinical practice.
- Improve patient care outcomes for children with complex neurological conditions. Given a patient with a neurological condition, providers will integrate the most up-to-date information and research to determine the best course of action.
- Counsel patients and families on short term and long-term prognoses and treatment options for a variety of neurological conditions.

The Annual Children's Neuroscience Symposium is an accredited program designed to enhance the practitioner's knowledge of common and complex pediatric neurological disorders, including presenting signs and symptoms, recommendations for specialist consultation and new treatment advances.

Intended Audience

The 27th Annual Children's Neuroscience Symposium is designed for those wanting a better understanding of the presented clinical information. This includes primary care providers, advanced practice providers, nursing staff, clinical research scientists, and students of those professions. This event welcomes those who recognize and value this opportunity to further their education.

Course Credit

An application has been submitted with The University of Arizona College of Medicine – Tucson which is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Venue
