# Mayo Clinic and Phoenix Children's IBD Collaborative Care Team Bootcamp

February 21-22, 2026

## MAKE PLANS TO ATTEND

**Mayo Clinic Franke Education Center  
Phoenix, Arizona**

### Course Directors

Talha A. Malik, M.D. and Brad A. Pasternak, M.D.

## COURSE HIGHLIGHTS

This inaugural bootcamp builds on a strong history of collaboration between Mayo Clinic Arizona and Phoenix Children's and brings together adult and pediatric IBD/GI providers, allied health professionals, patients, and families.

The course offers a comprehensive exploration of IBD across the lifespan, covering its diverse epidemiology, clinical presentations, and evolving management strategies. It also addresses the psychosocial and logistical challenges faced by patients and care teams alike. By fostering open dialogue and collaboration, this bootcamp aims to strengthen the pediatric-to-adult transition of care for individuals living with IBD.

The course includes a full-day program for providers with the second day dedicated to patients, families and providers.
